Professional Summary

Software Engineer with 6+ years of experience in full-stack development (MERN & MEAN) and cloud solutions (AWS Certified). Skilled in building scalable, secure, and high-performance applications across industries. Experienced in Agile environments with a proven track record of delivering clean, maintainable code and collaborating with cross-functional teams.

Technical Skills

- Frontend: React.js, Angular, JavaScript, TypeScript, jQuery, HTML5, CSS3, SCSS
- Backend: Node.js, Express.js, REST APIs, Web Services
- Databases: MySQL, PostgreSQL
- Cloud & DevOps: AWS (EC2, S3, CloudFront), Docker, GitHub Actions
- Version Control: GitHub, Bitbucket
- Tools: VSCode, PgAdmin, PHPMyAdmin
- Project Management & Collaboration: JIRA, Confluence
- API Development & Testing: Swagger, Postman
- Payments: Easebuzz, Cashfree

Professional Experience

Software Engineer – Austrax Technologies Pvt Ltd (Apr 2024 – Present)
- Developed scalable backend APIs with Node.js & Express, integrated with React frontends.
- Deployed services using AWS S3 & CloudFront.
- Collaborated on Agile sprint planning, reviews, and troubleshooting across full-stack.

Freelance Full-Stack Developer (Aug 2023 – Mar 2024)
- Delivered two projects using Angular, React, Node.js.
- Handled end-to-end development from requirements to deployment.
- Optimized performance and scalability for client web applications.

Software Engineer – Netlink (Part of Xebia) (Jun 2021 – Jul 2023)
- Developed features and implemented changes across backend and UI.
- Managed database operations and optimized application performance.

Software Engineer – Valasys Media (Oct 2020 – May 2021)
- Developed features for campaign management systems.
- Contributed to backend functionality and client-driven requirements.

Associate Software Engineer – Xento Systems (Mar 2020 – Sep 2020)
- Fixed bugs and developed new features in property management software (Entrata).
- Worked on PostgreSQL-backed modules with PHP and jQuery.

Web Developer – Katalyst Technology (Feb 2018 – Feb 2020)
- Designed, coded, and modified websites to meet client specifications.
- Built ERP integrations and Android-based reminder applications.

Key Projects
- **ELDigital IoT System – Eaton (2024)**: IoT systems for real-time operations across web and mobile. Tech: Node.js, Express, React, PostgreSQL, AWS S3, SSO.
- **Hyundai Dealer Parts Portal (2024)**: Developed backend modules for DPP website. Tech: Node.js, Express, React, PostgreSQL, AWS.
- **Bahrain National Holding Website (2022–2023)**: Built and enhanced modules on Outsystems 11 with React & AWS S3.
- **UP Excise Helpdesk (2021–2022)**: Built ticketing modules with role-based workflows. Tech: Outsystems 11, React.
- **Campaign Library – Valasys (2020–2021)**: Built Laravel-based campaign library with search and categorization.
- **Entrata Property Management (2020)**: Fixed bugs & developed new modules in rental management platform.
- **SALESKATALYST – Katalyst (Apr 2018 – Feb 2020)**: Web integration with apparel magic ERP software. Integrated with third-party API (Apparel Magic) using verified tokens, processed JSON responses, exposed web services for mobile app.
- **CLUSTER LAB – Health Reminder – Katalyst (Feb 2018 – Apr 2018)**: Android app for medicine reminders & notifications. Built tablet-optimized app with Android UI components & web API, data sync with Laravel backend via JSON, push notifications with Firebase.

Education
Bachelor of Computer Applications (BCA) – Abeda Inamdar Senior College (2017)

Certifications
- AWS Certified Developer Associate (2024)
- AWS Certified Cloud Practitioner (2024)
- Outsystems - Associate Reactive Developer (2022)
